

**Closed System Manufactures Recognized by California Department of
Pesticide Regulation**
2003

The following companies have submitted documentation to the Department of Pesticide Regulation (DPR) stating that they have a closed system, or component thereof, which demonstrates compliance with the Director's Closed System Criteria. DPR determined at the time of review that these companies meet the Director's Closed System Criteria. This is not an endorsement or recommendation by DPR. DPR does not certify or otherwise license any closed system. Additionally, companies not appearing on this list may have systems that meet the Director's Criteria, but have not submitted documentation to DPR. Closed system users should be aware that they are responsible for system compliance under operational conditions.

Company	Address	City	State	Phone
Cherlor Mfg.	P.O. Box 2174	Salinas	CA	408.422.5477
AMC Inc.	4106 S. Cedar Ave	Fresno	CA	559.485.1662
Flowserve	5599 E. Holmes Rd.	Memphis	TN	901.259.3900
Sotera Systems	1303 Rolling Ridge	Round Rock	TX	512.671.8404

Any company requesting to be added to this list should submit documentation (written description, drawings and/or photographs of system, and operating and maintenance instructions) to demonstrate compliance with the Closed System Criteria. This information (hard copy only, no electronic documents) should be sent to:

Department of Pesticide Regulation
Worker Health and Safety Branch
P.O. 4015
Sacramento, CA 95812
Attn: H. Fong, CSC Doc.

Upon review of the system documentation, the submitter may be required to provide an operational demonstration in California that the device functions as outlined in the submitted documentation and that it meets the Closed System Criteria during operation. Any questions concerning closed systems may be addressed to Harvard Fong, Senior Industrial Hygienist (hfong@cdpr.ca.gov or 916-445-4211).
